

Game-Changers: Women transforming the family business and Family Office

Thursday 22 September 2022 | 12:00pm - 2:30pm

Artemis Grill & Sky Bar | Grand Private Room
138 Market St, #40-01 CapitaGreen, Singapore 048946

This PWN lunch brings together members to discuss and explore **perspectives and investment strategies** with women who lead their family businesses and Family Offices.

Bring along your family members for a **moderated Q&A** which will cover both family dynamics and investing including:

- **Approaches to investing** for the family and Family Office
- **Vision and values** and how this may inform investment and business decisions
- How do we **engage both women and the next generation** in the Family Office investment space?
- Where does **the role of women** fit within the future family?
- With many families still operating within very traditional gender roles – **how can we overcome barriers?**

This lunch discussion is designed to be inclusive (i.e., not just for women). The objective is to collectively work towards real pathways for more women into positions of leadership within their own family-led businesses and Family Offices.
